NIL MARKET MONETIZATION RESEARCH

Compiled December 27, 2024

MARKET SIZE & GROWTH

Year	Market Size
2021	$400M
2022	$917M
2023	$1.2B
2024	$1.4B
2025	$1.67B (projected)
2026	$2.55B (projected)

Key Stats:

- Total addressable market: $1.5B Collegiate NIL
- Global influencer marketing: $35B (Commercial NIL opportunity)
- 72% of NIL deals involve social media promotion
- Athletes with 10K-50K followers see fastest growth
- Only 1% of athletes earn >$50,000
- 41% of all NIL deals go to football players

OPENDORSE REPORT - NIL AT FOUR (2024-2025)

Table of Contents Topics:

1. Executive Snapshot
2. Athlete Earnings: Who Pays?
3. Six-Figure Stars & Pro Odds

4. The Commercial Rocket Ship
5. Engagement Rates - Myth vs Math
6. Women's Sports Driving Commercial NIL
7. Transfer Portal Effect

OpenDorse Stats:

- 100,000+ athletes on platform
- Nearly $1B in transactions processed
- $20M funding round
- Estimated $15.5M annual revenue
- $140,000 revenue per employee

NIL DEAL TYPES & REVENUE STREAMS

1. SOCIAL MEDIA DEALS (72% of all deals)

- Instagram posts/stories
- TikTok videos
- Twitter/X posts
- YouTube content
- Snapchat

2. PERSONAL APPEARANCES

- Autograph signings
- Meet & greets
- Store openings
- Community events
- Speaking engagements

3. ENDORSEMENTS

- Product endorsements
- Brand ambassador roles
- Sponsored content

- Testimonials

4. LICENSING

- Video game likeness (EA Sports)
- Trading cards
- Merchandise
- NFTs

5. CAMPS & CLINICS

- Youth sports camps
- Training clinics
- Private lessons
- Group sessions

6. CONTENT CREATION

- Podcasts
- YouTube channels
- Newsletters
- Blogs

7. COLLECTIVE DEALS

- Booster-funded collectives
- Revenue sharing pools
- Team-wide deals

PLATFORM MONETIZATION MODELS

Commission-Based (Most Common)

- **Industry Standard: 20-30% commission**
- OpenDorse: ~20% platform fee
- INFLCR: ~15-25%
- MOGL: ~20%

- Athlete Studio: ~15-20%

Subscription/SaaS

- Monthly fees for athletes: $9.99-$29.99/month
- Annual memberships: $99-$299/year
- School/Team licenses: $5,000-$50,000/year
- Enterprise (conferences): $100,000+/year

Hybrid Models

- Free tier + premium features
- Transaction fees + subscription
- Freemium with upsells

Additional Revenue Streams

- Data/analytics licensing
- Compliance tools for schools
- Agent/agency partnerships
- Brand partnership fees
- Advertising/sponsored listings

COMPETITOR ANALYSIS

OpenDorse

- Market leader
- $15.5M revenue
- 100K+ athletes
- School compliance tools
- Transaction processing

INFLCR (Teamworks)

- Acquired by Teamworks
- Focus on compliance

- School-centric model
- Content management

MOGL

- Marketplace focus
- Brand matching
- Lower fees advertised

Athlete Studio

- Newer entrant
- Focus on smaller athletes
- Lower commission rates

College Athlete Influencers

- Under-represented athletes focus
- Brand matching
- Social good angle

EMERGING MONETIZATION OPPORTUNITIES

1. AI-Powered Services

- Automated deal matching
- Content generation
- Performance prediction
- Valuation algorithms

2. Financial Services

- NIL-backed loans
- Tax preparation
- Investment management
- Insurance products

3. Education & Training

- NIL education courses
- Brand building workshops
- Social media training
- Financial literacy

4. Data & Analytics

- Athlete valuation data
- Market intelligence
- Trend analysis
- ROI tracking for brands

5. Compliance Tools

- NCAA compliance tracking
- State law monitoring
- Contract review
- Disclosure management

6. Transfer Portal Integration

- Valuation during transfers
- Deal portability
- School matching

7. International Expansion

- Global athlete markets
- International brands
- Multi-language support

8. Vertical Integration

- Equipment marketplace
- Training services
- Health/wellness products

- Recovery products

REVENUE SHARING (House v NCAA Settlement)

- $20.5M cap per school for revenue sharing
- Third-party NIL deals >$600 must be reported
- College Sports Commission oversight
- New compliance requirements = new platform opportunities

ATHLYNX MONETIZATION OPPORTUNITIES

Based on research, ATHLYNX can monetize through:

1. **Transaction Fees** (15-20% on deals)
2. **Subscription Tiers** (Free/Pro/Elite/Enterprise)
3. **School/Team Licenses** ($5K-$100K/year)
4. **E-Commerce Marketplace** (equipment, recovery, health)
5. **AI Credits** (Fuel Bots, predictions, matching)
6. **Data Licensing** (athlete valuations, market data)
7. **Financial Services** (insurance, tax, loans)
8. **Education/Courses** (NIL training, brand building)
9. **Compliance Tools** (state laws, NCAA rules)
10. **Advertising** (brand listings, sponsored content)
11. **Transfer Portal** (valuation services)
12. **NFT/Trading Cards** (digital collectibles)
13. **Live Auctions** (real-time bidding fees)
14. **White-Label Licensing** (schools, conferences)

OPENDORSE NIL AT FOUR - DETAILED SPENDING DATA

Total Spend on NIL Products and Services (Billions)

Year	Commercial	Collective	Collegiate	TOTAL

Year 1 (21-22)	$596.7M	$321.3M	$-	$918.0M
Year 2 (22-23)	$229.1M	$910.9M	$-	$1.14B
Year 3 (23-24)	$234.0M	$936.0M	$-	$1.17B
Year 4 (24-25)	$957.4M	$1.3B	$-	$2.26B
Year 5 (25-26)	$994.9M	$227.3M	$1.5B	$2.75B
Year 6 (26-27)	$1.0B	$159.1M	$1.6B	$2.82B
Year 7 (27-28)	$1.1B	$111.0M	$1.7B	$2.96B
Year 8 (28-29)	$1.3B	$77.9M	$1.8B	$3.15B

THREE REVENUE CATEGORIES:

1. COMMERCIAL NIL (Brand Deals)

- Year 1: $596.7M → Year 8: $1.3B
- Growing steadily as brands invest more
- EA Sports College Football game driving growth

2. COLLECTIVE NIL (Booster-Funded)

- Peaked at $1.3B in Year 4
- Declining as revenue sharing takes over
- Year 8 projection: only $77.9M

3. COLLEGIATE NIL (School Revenue Sharing)

- NEW category starting Year 5
- $1.5B in Year 5 → $1.8B by Year 8
- House v. NCAA settlement driving this

NIL MARKET EVOLUTION TIMELINE:

Year 1 (2021-22): The NIL Gold Rush

- Brands like Degree and Gopuff activated athlete deals
- Early booster-backed collectives formed
- Schools like Oregon, SMU, Tennessee, Texas gained edge

Year 2 (2022-23): The Buildout Begins

- Operational structures matured
- Nationwide hiring of NIL directors
- Collective budgets expanded
- Focus on measurable ROI

Year 3 (2023-24): Chaos Meets Compliance

- Transfer Portal exploded
- Legal threats (Tennessee v. NCAA)
- Schools preparing for direct-to-athlete payments

Year 4 (2024-25): The Legal Reckoning

- EA Sports College Football video game returned
- Unparalleled boom for Commercial NIL
- House v. NCAA settlement accelerated reform

Year 5 (2025-26): Clarity & Chaos

- Revenue-sharing begins
- Collectives evolving or dissolving
- Market bigger than ever

KEY INSIGHT: THE GREAT SHIFT

The NIL market is undergoing a MASSIVE structural change:

- **Collectives are DYING** ($1.3B → $77.9M)
- **School Revenue Sharing is RISING** ($0 → $1.8B)
- **Commercial NIL is GROWING** ($596M → $1.3B)

ATHLYNX OPPORTUNITY:

- Position for the POST-COLLECTIVE era
- Focus on Commercial NIL (brand deals)
- Build tools for school revenue sharing compliance
- Don't over-invest in collective infrastructure

WHAT DO ATHLETES ACTUALLY RECEIVE?

Revenue Split by Category:

Category	Athletes Receive	Platform/Overhead Takes
Commercial	29%	71% (products 10%, services 80%)
Collective	90%	10% (overhead & commissions)
Collegiate	95%	5% (staff/agent commissions)

2025 Spending Breakdown ($2.75B Total):

- **$800M** goes to product makers & service providers
- **$1.95B** goes directly to college athletes

By Channel:

- **Commercial:** $995M total → $292M to athletes
- **Collective:** $227M total → $205M to athletes
- **Collegiate:** Revenue sharing direct to athletes

Why Three Cs Matter:

Commercial = Spending by brands and fans on NIL products (autograph signings, merchandise, endorsements)

Collective = Spending by donors and boosters (gifts to collectives supporting athletes)

Collegiate = Direct school revenue sharing (new House v. NCAA model)

PLATFORM FEE OPPORTUNITY ANALYSIS

Based on the data, here's where ATHLYNX can capture fees:

Revenue Stream	Total Market	Platform Fee Opportunity
Commercial NIL	$1B+	15-20% = $150-200M
Collective NIL	$227M (declining)	10% = $22M
Collegiate NIL	$1.5B+	Compliance tools = $50M+

Services (training, camps)	$500M+	10-15% = $50-75M

TOTAL ADDRESSABLE PLATFORM REVENUE: $270-350M annually

DETAILED SPENDING BY CATEGORY

Category	Total Spend	To Athletes
Commercial	$995M	$292M
Collective	$227M	$205M
Collegiate	$1.5B	$1.4B

Collegiate Definition: Spending by schools and conferences on athletes' NIL (e.g., $100K deal to put a QB on a billboard)

SIX-FIGURE STARS & PRO ODDS

Key Finding: Over 1,000 athletes on OpenDorse earned $100K+ in NIL

What happened to those six-figure earners?

Outcome	Percentage
Remain current college athletes	69%
Compete professionally (US or overseas)	19%
Entered the workforce	~10%

INSIGHT: Most six-figure NIL earners STAY in college - NIL is keeping talent in school longer!

MONETIZATION OPPORTUNITIES BY ATHLETE TIER

Tier 1: Elite Athletes ($100K+)

- Only ~1,000 athletes nationwide

- High-value brand deals
- Platform fees: 10-15% on deals
- Premium services: agents, tax, legal

Tier 2: Mid-Tier Athletes ($10K-$100K)

- ~10,000 athletes
- Local/regional brand deals
- Social media campaigns
- Platform fees: 15-20%

Tier 3: Emerging Athletes ($1K-$10K)

- ~50,000 athletes
- Micro-influencer deals
- Camps and clinics
- Platform fees: 20-25%

Tier 4: Entry-Level Athletes (<$1K)

- ~400,000+ athletes
- Subscription model ($9.99/month)
- Education/training upsells
- Marketplace transactions

THE COMMERCIAL ROCKET SHIP - Brand-Funded NIL

Key Stats:

- **2.8x growth** in average offer value of Commercial deals YoY
- **94% lower eCPM** for NIL campaigns amplified across media outlets
- College athlete audiences are **65-70% Gen Z**
- Total addressable market: **$1.5B Collegiate NIL** vs **$35B global influencer marketing**

Why NIL Works for Brands:

NIL is influencer marketing—the most effective ad spend due to its blend of reach and local impact with young and diverse followers. Schools and advertisers that support athletes by consistently delivering high-quality brand deals will win.

TOP THREE INDUSTRIES (by Total NIL Activities):

Rank	Industry	Example Brand Deal
1	**Technology**	Call of Duty x Ice Brady (UConn Women's Basketball)
2	**Apparel & Footwear**	Avoli x Anna Debeer (Louisville Women's Volleyball)
3	**Retail**	Quest x Keshawn Lynch (Norfolk State Football)

BRAND CATEGORIES FOR ATHLYNX MARKETPLACE

Tier 1 - High Volume Industries:

1. Technology (gaming, apps, electronics)
2. Apparel & Footwear (Nike, Adidas, Under Armour, boutique)
3. Retail (grocery, convenience, e-commerce)

Tier 2 - Growing Categories:

1. Food & Beverage (energy drinks, protein, snacks)
2. Health & Wellness (supplements, recovery)
3. Financial Services (banks, crypto, investing apps)
4. Automotive (dealerships, car brands)

Tier 3 - Emerging Categories:

1. Entertainment (streaming, gaming)
2. Travel & Hospitality
3. Real Estate

4. Legal Services
5. Insurance

ATHLYNX BRAND PARTNERSHIP REVENUE MODEL

Service	Fee Structure
Brand Listing (Basic)	Free
Brand Listing (Featured)	$500/month
Brand Listing (Premium)	$2,000/month
Deal Transaction Fee	15-20% of deal value
Campaign Management	$5,000-$50,000 per campaign
Data/Analytics Access	$1,000-$10,000/month
White-Label Platform	$50,000-$500,000/year

ENGAGEMENT RATES - MYTH VS MATH

Athletes vs Traditional Influencers:

Type	Engagement Rate
Student-Athletes	**5.6%**
Traditional Influencers	1.9%

Athletes have 3.7x higher engagement than traditional influencers!

Key Insights:

- College athlete influencers are recession-proof in performance metrics
- Women's Sports athletes outperform male counterparts 60/40% in NIL activities
- Women's Sports athletes expected to receive ~$1.6M of institutional rev-share dollars

- Scaled micro-influencer campaigns produce **45% higher engagement rates** than singular macro campaigns

Three Commercial Campaign Hacks for 2025:

1. Use multiple micro-influencer athletes (scaled approach)
2. Focus on Women's Sports athletes (higher engagement)
3. Leverage 65-70% Gen Z audience reach

WHY ATHLETES BEAT TRADITIONAL INFLUENCERS

Factor	Athletes	Traditional Influencers
Engagement Rate	5.6%	1.9%
Audience Trust	High (authentic)	Medium (paid feel)
Local Impact	Strong	Weak
Gen Z Reach	65-70%	Variable
Cost Efficiency	94% lower eCPM	Higher eCPM
Brand Safety	High	Variable

ATHLYNX COMPETITIVE ADVANTAGE

Based on this data, ATHLYNX should emphasize:

1. **Micro-Influencer Network** - Scale campaigns across many athletes
2. **Women's Sports Focus** - 60% of NIL activities, higher engagement
3. **Engagement Analytics** - Show brands the 5.6% vs 1.9% advantage
4. **Gen Z Targeting** - 65-70% of athlete audiences
5. **Cost Efficiency** - 94% lower eCPM messaging

THREE COMMERCIAL CAMPAIGN HACKS FOR 2025

1. Amplify Existing Conversations

Budgeting and planning ahead is critical. Even quick-turn campaigns require approvals and preparation to maximize a moment. Top campaigns take at least three months to plan, so look anywhere from six to nine months ahead to build activations around tentpole events on the sports and social calendars like the Duke's Mayo Bowl/Charlotte Sports Foundation around Bowl Season or Movember during Mental Health Awareness Month.

2. Clear Metrics Matter

Gone are the days of "just for fun" as it relates to marketing with college athletes. Results matter and advertisers expect return on their ad spend, oftentimes guaranteed success. Clearly identify and communicate your key performance indicators, then build an impactful program to achieve those objectives.

3. Leverage Women's Sports Athletes

Women's sports are experiencing record growth and engagement—from youth participation to viewership to online engagement and beyond. Sponsorship in women's sports continues to outpace the broader industry, with **12% deal growth surpassing the 8% increase** seen in men's professional sports leagues over the past year. Supporting women's sports is good business that will lead to strong return on investment, as brands like Epsilon, UScellular, CVS, and others have seen.

WOMEN'S SPORTS DRIVING COMMERCIAL NIL

"The momentum is undeniable."

Women's sports athletes are not only drawing larger audiences and higher engagement but also offering brands remarkable value. From women's volleyball to softball and beyond, this is not a moment—it's a movement.

Key Stats:

- Women's sports sponsorship: **12% deal growth** (vs 8% for men's)
- Women athletes outperform male counterparts **60/40%** in NIL activities
- Brands seeing strong ROI: Epsilon, UScellular, CVS

Women's Basketball Surge (2024):

- Record viewership
- Record engagement

- Record NIL deal values

ATHLYNX WOMEN'S SPORTS STRATEGY

Given the data, ATHLYNX should:

1. **Dedicated Women's Sports Section** - Highlight female athletes prominently
2. **Women's Sports Brand Matching** - Connect brands seeking female athlete partnerships
3. **Title IX Compliance Tools** - Help schools balance NIL across genders
4. **Women's Sports Analytics** - Track the 12% growth advantage
5. **Women's Collective Support** - Tools for women-focused collectives

---

WOMEN'S SPORTS NIL - DETAILED DATA

Women's Basketball:

- 2024 March Madness broke viewership records
- Epsilon leveraged athletes tournament-wide achieving **51% average impression rate** (far exceeding industry benchmarks)
- Top 16 Men's vs Women's Basketball programs: Women's teams had **3.2x larger social following** (over 21.7M combined)

Women's Volleyball NIL Growth:

Year	Growth Rate
Year 1 → Year 2	**365% increase** in NIL compensation
Year 2 → Year 3	**123% increase**
Year 3 → Year 4	**146% increase**

Softball NIL Market:

- Women's College World Series: Record 2.4M viewers (2025 WCWS final)
- **82.0%** of Softball audience is younger than 34 years old (vs 42.9% for Baseball)

- Softball audience is **28.6% ethnically diverse** (vs 16.8% for Baseball)

Brand Examples:

- **Charlie Hustle x Teagan Kavan** (Texas, Softball)
- **Planet Fitness x Jazzy Owens** (North Texas, Women's Basketball)

Key Insight:

83.9% of Collegiate rev-share dollars are expected to go to Football and Men's Basketball. Investing in Commercial NIL with Women's Sports is not only equitable—it's smart business.

WOMEN'S SPORTS AUDIENCE DEMOGRAPHICS

Sport	Under 34 Years Old	Ethnically Diverse
Softball	82.0%	28.6%
Baseball	42.9%	16.8%

Women's sports = younger, more diverse audience = higher brand value

---

TRANSFER PORTAL EFFECT

Portal entry deadlines have driven urgency for NIL Collectives for years, but will they continue in the rev-share era?

Key Finding: Average NIL deal price TRIPLED in the weeks following a portal window. For hoops, the March buzz led offers to surge more than **5x above previous payout levels**.

NIL Deal Price Multipliers by Sport (Post-Portal Window):

Sport	Price Multiplier
Softball	**6.9x**
Basketball (M)	**5.3x**
Baseball	**1.7x**

Football	**1.6x**
Basketball (W)	**1.2x**

Average NIL Deal Amounts by Sport:

- **Basketball (M):** ~$15K → spikes to $50K+ post-portal
- **Football:** ~$5K → $10K post-portal
- **Volleyball (W):** ~$7K → $10K post-portal
- **Softball:** ~$5K → $8K post-portal
- **Baseball:** ~$5K → $8K post-portal

TRANSFER PORTAL MONETIZATION OPPORTUNITIES

For ATHLYNX:

1. **Portal Valuation Tool** - Help athletes understand their market value during transfer windows
2. **Portal Matching Service** - Connect transferring athletes with schools/collectives
3. **Portal Analytics** - Track deal price surges by sport/position
4. **Urgency-Based Pricing** - Premium fees during portal windows
5. **Portal Insurance** - Protect deals during transfer uncertainty

Timing Strategy:

- Portal windows create **3-7x deal value spikes**
- Position ATHLYNX services around portal deadlines
- Premium pricing during high-urgency periods

PRE-SHARE SURGE: COLLECTIVE SPENDING TRENDS

Year-over-Year Growth in NIL Collective Spending:

Peak Growth: +824% (shown in chart)

Timeline Analysis (Jul 2024 - Jun 2025):

- Collective spending surged dramatically before revenue sharing implementation
- This represents the "last hurrah" of the collective era
- Collectives racing to lock in athletes before rev-share changes

Sport-Specific Growth (Post-Portal):

Sport	Multiplier
Softball	3.1x
Basketball (W)	3.0x
Baseball	1.7x

THE COLLECTIVE DECLINE FORECAST

Based on OpenDorse data, collectives are projected to decline dramatically:

Year	Collective Spending
Year 4 (24-25)	$1.3B (PEAK)
Year 5 (25-26)	$227M (-82%)
Year 6 (26-27)	$159M
Year 7 (27-28)	$111M
Year 8 (28-29)	$77.9M (-94% from peak)

CRITICAL INSIGHT: Collectives are dying. Don't build a business model dependent on collective revenue.

ATHLYNX STRATEGIC POSITIONING

DO:

1. Focus on **Commercial NIL** (growing from $1B to $1.3B)

2. Build **Collegiate/Revenue Share tools** ($0 to $1.8B opportunity)
3. Invest in **Women's Sports** (12% growth, higher engagement)
4. Leverage **Transfer Portal windows** (3-7x deal spikes)

DON'T:

1. Over-invest in collective infrastructure (dying market)
2. Ignore the revenue-sharing transition
3. Miss the women's sports opportunity

COLLECTIVE SPENDING SURGE (2024 vs 2025)

Month-by-Month YoY Growth:

Month	YoY Growth
January	+215%
February	+52%
March	+73%
April	+182%
May	+119%
June	+600%+ (off chart)

Overall collective spend is up to +242% from this time last year

"Front Loading" Phenomenon:

The concept of "front loading" payments—stacking collective payments prior to the approval of the House settlement and subsequent July 1 cap year—was not just a theoretical possibility, the data proved it.

Power 4 Institution Survey:

In a survey of Power 4 institutions, OpenDorse found more than half of respondents planned to spend **25-50% of a projected annual cap on athlete payments in the final weeks of the fiscal year**.

BUDGET BREAKDOWN: REV-SHARE ALLOCATIONS

(Next page shows how schools are allocating revenue share budgets)

KEY MONETIZATION INSIGHT: TIMING IS EVERYTHING

High-Value Windows for ATHLYNX:

1. **End of Fiscal Year (May-June)** - Collectives front-loading payments (+242% surge)
2. **Transfer Portal Windows** - Deal prices spike 3-7x
3. **March Madness** - Basketball NIL deals surge 5.3x
4. **Bowl Season** - Football NIL activity peaks
5. **Revenue Share Implementation (July 1)** - New compliance needs

Premium Pricing Opportunities:

- Charge higher fees during high-activity windows
- Offer "urgency" packages during portal periods
- Premium compliance tools around July 1 deadlines

BUDGET BREAKDOWN: REV-SHARE ALLOCATIONS

NCAA Division I institutions are now operating in a post-settlement era, where revenue-sharing is no longer hypothetical—it's happening.

Average % Share by Sport:

Conference	Football	Basketball (M)	Basketball (W)	Other
Power 4 (ACC, Big 12, Big Ten, SEC)	65.6%	20.3%	6.6%	7.5%
Group of 6 (AAC, C-USA, MAC, MW, Pac 12, Sun Belt)	61.9%	21.4%	9.4%	7.3%

Division I (All other)	55.4%	27.3%	10.1%	7.3%

Average Pool Allocation (2025-2026):

Conference Tier	Avg. Pool Allocation
Power 4	**$20.5M**
Group of 6	**$4.3M**
Division I	**$4.8M**

Sport Budget Allocation by Position Group:

Football | Power 4:

Position	% Allocation
Quarterback	16.9%
Wide Receiver	15.4%
Offensive Line	14.2%
Defensive Line	13.7%
Defensive Back	13.0%
Linebacker	11.9%
Running Back	8.9%
Tight End	4.5%
Specialist	1.5%

Basketball | High Major:

Position	Men's	Women's
Guard	53.2%	31.0%

Forward	37.3%	16.4%
Center	9.5%	52.6%

REVENUE SHARE MONETIZATION FOR ATHLYNX

School-Level Services:

Service	Price Range
Rev-Share Compliance Platform	$25,000-$100,000/year
Budget Allocation Tools	$10,000-$50,000/year
Position Valuation Analytics	$5,000-$25,000/year
Title IX Compliance Tracking	$15,000-$40,000/year

Conference-Level Services:

Service	Price Range
Conference-Wide Platform	$250,000-$1M/year
Multi-School Analytics	$100,000-$500,000/year
Compliance Reporting Suite	$50,000-$200,000/year

Total Addressable Market (School Licenses):

- Power 4: 70 schools × $50K avg = $3.5M
- Group of 6: 80 schools × $25K avg = $2M
- Division I: 200+ schools × $15K avg = $3M+
- **Total: $8.5M+ annually in school licenses alone**

STAY IN SCHOOL OR GO PRO?

Key Insight: Many athletes run the risk of taking a PAY CUT when they jump from college to professional ranks—even top-end talent.

Case Study: NiJaree Canady

- Top-earning college Softball student-athlete
- Made a reported **$1.1M** last season at Texas Tech
- Average salary for players in Athletes Unlimited Softball League (AUSL): **$45K** (up to $75K)
- Minor League Baseball (MiLB) players make **$20K-$36K** annually

Professional Pay vs Collegiate Earnings:

Sport	Position	% Chance of Going Pro
Football	Power 4 Wide Receiver	**3.8%**
Volleyball (W)	NCAA DI Outside Hitter	**1.1%**
Baseball	NCAA DI	**16.4%**

Olympic Sports Reality:

Golf, Track & Field, Gymnastics, Swimming & Diving, and other Olympic sport athletes often coach or work day jobs to supplement pursuing their athletics dreams beyond college. Their income is largely driven by **Commercial NIL endorsements**.

The Case for Staying in School:

- Build a brand
- Make connections
- Invest in long-term success—on and off the field
- NIL earnings can EXCEED pro salaries in many sports

ATHLYNX "STAY IN SCHOOL" MONETIZATION

Career Planning Tools:

Service	Description	Price
Pro vs College Calculator	Compare NIL earnings to pro salary projections	Free (lead gen)
Career Path Advisor	AI-powered career guidance	$29.99/month
Brand Building Course	Help athletes maximize college years	$199-$499
Financial Planning	Long-term wealth building	$99/month

Value Proposition:

"ATHLYNX helps athletes maximize their college earning potential—because for most sports, college IS the pros."

PRO VS COLLEGE EARNINGS COMPARISON

Collegiate Earnings vs Professional Pay by Sport:

Sport/Position	Collegiate Earnings (Top 5%)	Pro Pay	% Chance of Going Pro
Basketball (M) High Major Forward	**~$2.5M-$3.0M**	~$600K	3.8%
Basketball (W) High Major Guard	~$300K	~$300K	2.9%
Softball NCAA DI Utility	~$300K	~$300K	1.6%
Baseball NCAA DI Infielder	~$300K	~$300K	16.4%
Volleyball (W) NCAA DI Outside Hitter	~$500K	~$300K	1.1%

Key Insight: Men's Basketball top earners make MORE in college NIL than rookie pro contracts!

POINTS PER PAYDAY

In Men's Basketball, talent doesn't just win games—it drives dollars. Though there is no substitute for social influence, data reveals a strong connection between on-court production and NIL earnings, with standout scorers and high-minute players commanding premium value.

For high-major and mid-major athletes alike, each uptick in output can translate into significant financial returns, reflected in the Spring 2025 portal which was the most active on record.

AAV Trend in NCAA Division I Men's Basketball:

- Performance metrics directly correlate to NIL value
- Points, minutes, and stats drive deal values
- Spring 2025 portal was most active on record

PERFORMANCE-BASED VALUATION FOR ATHLYNX

Athlete Valuation Algorithm Inputs:

1. **On-Court Performance** - Points, assists, rebounds, stats
2. **Social Media Following** - Instagram, TikTok, Twitter
3. **Engagement Rate** - Likes, comments, shares
4. **Market Size** - School location, conference
5. **Sport/Position** - QB premium, etc.
6. **Transfer Portal Status** - 3-7x multiplier during windows
7. **NIL Deal History** - Past earnings

Valuation Tool Monetization:

Service	Price
Basic Valuation Report	Free (lead gen)
Detailed Valuation Analysis	$49.99
Real-Time Valuation Dashboard	$19.99/month

School/Team Roster Valuations	$5,000-$25,000/year
Brand Valuation API Access	$10,000-$50,000/year

AAV TREND IN NCAA DIVISION I MEN'S BASKETBALL

Performance Output Score vs Average Annual Value (AAV):

Output Level	AAV Range
Low Output	~$500K
Medium Output	~$1M-$1.5M
High Output	~$1.5M-$2M+

High Major MBB Players:

- **$125K+ boost in earnings for every +1.0 PPG** added to season average output
- **$23K+ increase for every additional minute per game** added to season average

Mid-Major MBB Players:

- **$47K+ boost in earnings for every +1.0 PPG** added to season average output
- **$7K+ increase for every additional minute per game** added to season average

---

PERFORMANCE-TO-EARNINGS FORMULA

ATHLYNX Valuation Algorithm:

High Major Basketball:

Plain Text

```
NIL Value = Base Value + ($125,000 × PPG) + ($23,000 × MPG) + Social
Multiplier
```

Mid-Major Basketball:

Plain Text

```
NIL Value = Base Value + ($47,000 × PPG) + ($7,000 × MPG) + Social Multiplier
```

Monetization of Performance Data:

Product	Description	Price
Performance Predictor	Project NIL value based on stats	$9.99/report
Season Tracker	Real-time NIL value updates	$29.99/month
Transfer Value Calculator	What's an athlete worth at a new school?	$49.99/report
Recruiting Intelligence	NIL projections for recruits	$25,000/year (schools)

POINTS PER PAYDAY - WOMEN'S BASKETBALL

For Women's Basketball, excellence on the hardwood is paying off in new ways. As NIL opportunities expand, the data shows that elevated game performance—more points, more minutes, greater impact—directly influences an athlete's earning power. Coupled with a rapidly increasing Commercial NIL market capture, the numbers underscore how skill and visibility are reshaping the financial landscape for stars of the game.

AAV Trend in NCAA Division I Women's Basketball:

Output Level	AAV Range
Low Output	~$50K
Medium Output	~$150K
High Output	~$250K-$350K+

High Major WBB Players:

- **$21K+ boost in earnings for every +1.0 PPG** added to season average output

Mid-Major WBB Players:

- **$3K+ boost in earnings for every +1.0 PPG** added to season average output

---

COMPLETE PERFORMANCE-TO-EARNINGS FORMULAS

Men's Basketball:

Tier	Per PPG Value	Per MPG Value
High Major	$125,000	$23,000
Mid-Major	$47,000	$7,000

Women's Basketball:

Tier	Per PPG Value
High Major	$21,000
Mid-Major	$3,000

ATHLYNX Valuation Engine Opportunity:

Build the most accurate NIL valuation algorithm using:

1. Performance stats (PPG, MPG, etc.)
2. Social media metrics
3. School/conference tier
4. Market size
5. Historical deal data
6. Transfer portal timing

Monetize through:

- Per-report fees ($9.99-$99.99)
- Subscription access ($29.99/month)
- API licensing ($10K-$100K/year)

- School/conference licenses ($25K-$250K/year)

FORGING AHEAD - THE NIL OUTLOOK

Four years into the NIL era, the training wheels are off.

Key Takeaways:

The Market Has Matured:

- What started as the "Wild West" in 2021 has become a central pillar of college sports business
- The developmental phase is over
- Revenue-sharing is now reality, not theory

2025 Marks the Transition from Flexibility to Formality:

- New compliance tools required
- Lawsuits testing longstanding norms
- Direct revenue from schools to athletes (first time ever)
- Professional expectations in amateur competition

Winners vs Losers:

- Leaders who embrace structure, adopt compliant systems, and invest in athlete success will THRIVE
- Those who delay will fall behind
- This next chapter separates the prepared from the reactive

OpenDorse's Position:

- 140K+ college athletes supported
- 250K+ NIL transactions powered
- Decade of infrastructure building

ADDITIONAL WBB EARNINGS DATA

High Major WBB Players:

- **$21K+ boost per +1.0 PPG**

- **$3K+ per additional minute per game**

Mid-Major WBB Players:

- **$3K+ boost per +1.0 PPG**
- **$500+ per additional minute per game**

FINAL ATHLYNX MONETIZATION SUMMARY

TOTAL ADDRESSABLE MARKET: $3B+ NIL Industry

Revenue Streams for ATHLYNX:

Category	Revenue Model	Annual Potential
Transaction Fees	15-20% on deals	$150-300M market
Athlete Subscriptions	$9.99-$29.99/month	$50M+ (500K athletes)
School Licenses	$15K-$100K/year	$35M+ (350 D1 schools)
Brand Partnerships	Listing fees + commissions	$25M+
Data/Analytics	API licensing	$10M+
E-Commerce	Marketplace fees	$50M+
Financial Services	Insurance, tax, loans	$25M+
Education/Training	Courses, workshops	$10M+

ATHLYNX Competitive Advantages:

1. **AI-Powered** - Fuel Bots, predictions, matching
2. **Full Ecosystem** - Athletes, brands, schools, parents, coaches
3. **Women's Sports Focus** - 12% growth, higher engagement
4. **Performance Valuation** - Data-driven athlete pricing
5. **Compliance Tools** - Revenue-share ready
6. **E-Commerce Integration** - Equipment, recovery, health

COMPETITOR DEEP DIVE: MOGL

Company Overview:

- Founded by **Brandon Wimbush** (former Notre Dame QB) and CEO **Ayden Syal**
- Raised **$2.6M seed funding** led by Magarac Venture Partners
- Claims to be "the only AI-powered NIL platform"

Key Stats:

- **30,000+ NIL transactions** in 2025
- **20,000+ pre-vetted athlete influencers**
- **15% average engagement rate** (5x higher than traditional influencers)
- **7x ROAS** (Return on Ad Spend) for brands
- **90% faster campaign setup** using AI

Business Model:

- **FREE for athletes** (100% of earnings kept by athletes)
- Revenue from brand partnerships and campaign fees
- University compliance tools (MOGL Monetize™) - FREE for schools

AI Features (MOGL AI Assistant - launched August 2025):

- Automated athlete discovery
- Automated outreach and recruitment
- Instant NCAA-compliant contract generation
- AI-driven matching (minutes, not weeks)

Brand Partners:

- Toyota
- H&M
- Liquid I.V.
- SnapChat
- Goodyear
- Dentsu

- NBC Sports
- Sony Music

Competitive Positioning:

Feature	MOGL	OpenDorse	INFLCR	Icon Source
AI Automation	✅ Yes	❌ No	❌ No	❌ No
Free for Athletes	✅ Yes	❌ No	❌ No	❌ No
Transaction Fee	Unknown	**30%**	Unknown	Subscription
University Partners	Unknown	120+	Focus area	20,000 athletes

COMPETITOR COMPARISON SUMMARY

OpenDorse:

- **Market Leader** in NIL infrastructure
- **30% transaction fee** to brands
- **120+ university partnerships**
- Focus on compliance and school tools
- $15.5M estimated annual revenue

INFLCR (Teamworks):

- **Acquired by Teamworks** (larger sports tech company)
- Focus on **software tools for athletic departments**
- Compliance-first approach
- Less marketplace, more SaaS

Icon Source:

- **20,000 athletes** in network
- **Manual processes** (not AI-powered)
- **Brand-side subscriptions**

- Traditional marketplace model

NIL Club by YOKE:

- Scaled quickly
- Lacks performance-based matching
- No AI-driven analytics

MOGL Differentiators:

1. **AI-First** - Only platform with AI automation
2. **Free for Athletes** - 100% earnings kept
3. **Speed** - 90% faster campaign setup
4. **Engagement** - 15% vs 1.9% industry average

ATHLYNX COMPETITIVE STRATEGY

Beat OpenDorse by:

- Lower transaction fees (15-20% vs 30%)
- AI-powered matching (like MOGL)
- Better athlete experience

Beat MOGL by:

- Full ecosystem (not just brand deals)
- E-commerce marketplace
- Financial services (insurance, tax, loans)
- Training/education platform
- Warrior's Playbook (unique value)

Beat INFLCR by:

- Athlete-first (not school-first)
- Marketplace + SaaS hybrid
- Direct brand connections

COMPREHENSIVE NIL DEAL TYPES & REVENUE STREAMS

1. SOCIAL MEDIA DEALS (72% of all NIL deals)

Platform	Deal Types	Typical Rates
Instagram	Posts, Stories, Reels	$100-$10,000+ per post
TikTok	Videos, Trends	$200-$15,000+ per video
Twitter/X	Tweets, Threads	$50-$5,000+ per tweet
YouTube	Videos, Shorts	$500-$25,000+ per video
Snapchat	Stories, Takeovers	$100-$5,000+

2. PERSONAL APPEARANCES

- Autograph signings
- Meet & greets
- Store openings
- Community events
- Speaking engagements
- Charity events
- Corporate functions

Typical Rates: $500-$50,000+ per appearance

3. ENDORSEMENTS & SPONSORSHIPS

- Product endorsements
- Brand ambassador roles
- Sponsored content
- Testimonials
- Long-term partnerships

Typical Rates: $1,000-$500,000+ annually

4. LICENSING & ROYALTIES

- Video game likeness (EA Sports)
- Trading cards (Panini, Topps)
- Merchandise (jerseys, apparel)
- NFTs and digital collectibles
- Bobbleheads and memorabilia

Typical Rates: Royalty-based (5-15% of sales)

5. CAMPS & CLINICS

- Youth sports camps
- Training clinics
- Private lessons
- Group sessions
- Online coaching

Typical Rates: $50-$500 per participant

6. CONTENT CREATION

- Podcasts
- YouTube channels
- Newsletters (Substack)
- Blogs
- Photography/modeling

Typical Rates: Variable (ad revenue, sponsorships)

7. BUSINESS OWNERSHIP

- Starting own brand/company
- Equity partnerships
- Franchise ownership
- Product lines

Typical Rates: Equity-based

8. COLLECTIVE DEALS

- Booster-funded payments

- Revenue sharing pools
- Team-wide deals
- Performance bonuses

Typical Rates: $1,000-$1,000,000+ annually

9. OUTSIDE EMPLOYMENT

- Part-time jobs related to NIL
- Consulting
- Coaching
- Media appearances

NIL REVENUE SHARING MODEL (House v. NCAA Settlement)

Key Terms:

- **$20.5M cap per school** for direct athlete payments
- Schools can elect to participate or not
- Third-party NIL deals >$600 must be reported
- College Sports Commission oversight

Revenue Share Allocation (Projected):

Sport	% of Revenue Share
Football	65.6% (Power 4)
Men's Basketball	20.3%
Women's Basketball	6.6%
Other Sports	7.5%

Impact on Collectives:

- Collectives declining from $1.3B to $77.9M by Year 8

- Schools taking over direct payments
- Collectives pivoting to "Commercial NIL" focus

ATHLYNX REVENUE STREAM MATRIX

Transaction-Based Revenue:

Deal Type	ATHLYNX Fee	Market Size
Social Media Deals	15%	$500M+
Endorsements	15%	$300M+
Appearances	20%	$200M+
Camps/Clinics	10%	$100M+
Licensing	10%	$150M+
Collective Deals	5%	$200M (declining)

Subscription Revenue:

Tier	Price	Features
Free	$0	Basic profile, deal alerts
Pro	$9.99/mo	Analytics, priority matching
Elite	$29.99/mo	AI tools, premium support
Enterprise	Custom	School/team licenses

Service Revenue:

Service	Price
Tax Preparation	$99-$499
Contract Review	$199-$999

Financial Planning	$99/mo
NIL Insurance	$50-$500/mo
Brand Building Course	$199-$999

NIL FINANCIAL SERVICES DEEP DIVE

NIL INSURANCE PRODUCTS

Players Health - NIL Contract Protection

Products Built for the NIL Era:

1. **Donor Contribution Visibility** - Legal analysis for donor contributions, helping programs navigate finances
2. **Financial Security (NIL Contract Protection)** - Solidifies financial foundation, ensures institution thrives even during athlete transfers
3. **Brand Engagement Continuity** - Nurtures brand connections during athlete transitions, securing long-term financial horizon
4. **Risk Management** - Shield against unpredictabilities of modern college sports, fostering responsible financial planning
5. **Critical Injury Protection** - Safeguards athletes' dreams during physical adversity
   - Comprehensive Care Approach (medical expenses, rehab, loss of scholarship)
   - Safeguarding Athletic Dreams (financial support during recovery)
   - Immediate Support in Crisis (season-ending/catastrophic injuries)

Other NIL Insurance Providers:

Provider	Products	Target Market
TRM Insurance	NIL Athlete Insurance	Individual athletes
A-G Specialty Insurance	NIL Contractual Insurance	Programs, collectives
CBIZ	NIL Contract Protection	Institutions

Prime Insurance	Student Athlete Insurance	Individual athletes

NIL Insurance Types:

1. **Contract Protection Insurance** - Protects against lost NIL income due to injury
2. **Disability Insurance** - Covers future earnings loss (premiums $23K-$29K for football)
3. **Liability Insurance** - Protects against claims from NIL activities
4. **E&O Insurance** - Protects institutions from NIL agreement missteps
5. **D&O Insurance** - Protects collective board members

NCAA Catastrophic Injury Insurance:

- $90,000 deductible
- $90,000 max per injury
- Covers hospital, surgical, ICU, rehab
- Mandatory $250 fee for secondary coverage at some schools

ATHLYNX NIL INSURANCE MONETIZATION

Insurance Products to Offer:

Product	Description	Revenue Model
NIL Contract Protection	Protects athlete NIL income if injured	Commission on premiums (15-20%)
Career-Ending Injury	Covers lost future NIL earnings	Commission on premiums
Liability Coverage	Protects against NIL activity claims	Commission on premiums
Reputation Insurance	Covers damage from controversies	Commission on premiums
Transfer Protection	Covers lost deals during transfers	Commission on premiums

Partnership Opportunities:

- White-label insurance products with major carriers
- Referral fees from insurance brokers
- Bundled coverage packages for athletes
- School/collective group policies

Estimated Revenue:

- 500,000 college athletes
- 10% adoption rate = 50,000 policies
- Average premium: $500/year
- Commission: 15% = $75/policy
- **Annual Revenue: $3.75M from insurance alone**

NIL TAX SERVICES

Edler Zain - EZ NIL Tax Services

Pricing Tiers Based on Income:

Package	Income Range	Features
EZ NIL Express	$100K-$300K	Accounting software onboarding, 1-hr tax planning call, annual reconciliation, tax prep & filing
EZ NIL Elite	$300K-$750K	All Express features + quarterly reconciliation, quarterly advisory calls, cash flow strategy, support for previous unfiled years
EZ NIL Hall of Fame	$750K+	All Elite features + entity analysis, long-term tax strategy, payroll registration, monthly reconciliation, monthly advisory calls, tax optimization for investments

Key NIL Tax Challenges:

- **Multi-state tax filings** - Athletes earn in multiple states during away games
- **Self-employment tax** - 15.3% (12.4% Social Security + 2.9% Medicare)
- **Quarterly estimated payments** - Required for self-employed income
- **Entity structuring** - LLC vs S-Corp decisions
- **Deductions** - Agent fees, training, travel, tax prep (may be limited under new laws)

NIL Tax Service Providers:

Provider	Specialty	Target
Edler Zain	NIL-specific tax services	Athletes $100K+
Robert Hall Taxes	NIL tax prep	All athletes
Insogna CPA	NIL deals & taxes	Student athletes
Winston CPA Group	NIL tax specialists	All athletes
MJ&CPA	NIL advisory services	Athletes & families

Financial Advisory Services:

Provider	Services
EP Wealth	NIL financial advisors, wealth management
Cresset Capital	Athlete wealth management, family office
Merrill Lynch	NIL money management guidance

ATHLYNX TAX & FINANCIAL SERVICES MONETIZATION

Tax Services Revenue Model:

Service	Price Point	Revenue Model

Basic Tax Prep	$500-$1,500	Direct fee or referral commission (20-30%)
Premium Tax Planning	$2,000-$5,000	Direct fee or referral commission
Entity Setup (LLC/S-Corp)	$500-$1,500	Direct fee or referral commission
Quarterly Advisory	$200-$500/quarter	Subscription model
Multi-State Filing	$100-$300/state	Add-on fee

Financial Advisory Revenue:

Service	Revenue Model
Financial Planning Referrals	$500-$2,000 per referral
Wealth Management AUM	0.25-0.50% referral on AUM
Investment Product Sales	Commission on products

Estimated Tax Services Revenue:

- 500,000 college athletes
- 50,000 with significant NIL income ($10K+)
- 30% use professional tax services = 15,000
- Average fee: $1,000
- ATHLYNX commission: 25% = $250/athlete
- **Annual Revenue: $3.75M from tax services**

Financial Planning Revenue:

- 5,000 athletes with $100K+ NIL income
- 20% use financial advisors = 1,000
- Referral fee: $1,500 average
- **Annual Revenue: $1.5M from financial planning referrals**

NIL PLATFORM PRICING MODELS & TRANSACTION FEES

Industry Standard Commission Rates:

Platform	Commission Rate	Who Pays	Notes
OpenDorse	30%	Brands	120+ university partnerships
MOGL	20%	Business	Free for athletes, AI-powered
NIL Club	15%	Creator	Plus payment processing fees
AthleteUp	20-30%+	Varies	Industry standard range
Pliable Marketing	20%	On sales	Commission on internet sales
Teamworks Wallet	0%	N/A	No processing fees for payments
Payment Labs	<1%	Varies	Low-fee alternative

Agent Commission Rates:

- Standard NIL agents: **15-20%** of deal value
- Some agents charge up to **25%** for smaller deals

Platform Revenue Models:

1. **Transaction Fee Model**
   - Take percentage of each deal (15-30%)
   - Higher volume = higher revenue
   - Example: $1B market × 20% = $200M in fees
2. **SaaS Subscription Model**
   - Schools pay annual license fees
   - Example: OpenDorse charges universities for platform access
   - Estimated: $50K-$500K per school annually

3. **Freemium Model**
   - Free for athletes, charge brands/businesses
   - Monetize through premium features
4. **Hybrid Model**
   - Subscription + transaction fees
   - Most profitable approach

OpenDorse Market Data:

- Year 1 (2021-22): $596.7M total NIL market
- Year 2 (2022-23): $229.1M
- Year 3 (2023-24): $234.0M
- Year 4 (2024-25): $957.4M
- Year 5 (2025-26 projected): $994.9M
- **30,000+ transactions facilitated by MOGL in 2025 alone**

ATHLYNX PLATFORM FEE STRUCTURE

Recommended Fee Model:

Service	Fee	Revenue Potential
Marketplace Transactions	15%	$150M market × 15% = $22.5M
School Subscriptions	$100K/year	350 D1 schools × $100K = $35M
Collective Subscriptions	$50K/year	200 collectives × $50K = $10M
Brand Subscriptions	$25K/year	500 brands × $25K = $12.5M
Premium Athlete Features	$99/month	10,000 athletes × $99 × 12 = $11.9M
Payment Processing	2.9% + $0.30	Standard Stripe fees

Competitive Advantage Strategy:

- **Lower fees than competitors** (15% vs 20-30%)
- **Free tier for athletes** (monetize brands/schools)
- **Value-added services** (tax, insurance, training)
- **AI-powered matching** (better ROI for brands)

Total Platform Revenue Potential:

- Marketplace: $22.5M
- Subscriptions: $57.5M
- Premium Features: $11.9M
- **Total: $91.9M annually**

NIL TRADING CARDS & NFTs

ONIT Athlete - Leading NIL Trading Card Company

Key Stats:

- **8,055 collegiate athletes** had officially-licensed trading cards in 2024-25
- More than all other trading card companies combined
- Products include: Trading Cards, College Clings, Blaster Boxes

Product Pricing:

Product	Price
Blaster Box	$29.95-$39.95
Platinum Box (Guaranteed Autograph)	$59.95-$79.95
Prime Box (3 Guaranteed Autographs)	$99.95-$149.95
National Championship Commemorative Box	$59.95
College Clings (Individual)	$9.95-$14.95

Schools Covered:

- Ohio State, Texas A&M, Oklahoma, Alabama, Michigan, USC, Tennessee, Texas, LSU, Penn State, Kansas State, South Carolina

Other NIL Trading Card Companies:

Company	Model
Panini College	University partnerships, licensed cards
DPC Labs	NFT trading cards (platinum, gold, silver tiers)
OpenLocker	NFT platform for college athletes
OneTeam	Group licensing for jerseys, video games, trading cards, NFTs

NFT Opportunities:

- Digital collectibles with tiered editions
- Exclusive content unlocks
- Fan engagement through ownership
- Secondary market royalties (2.5-10% on resales)

NIL COLLECTIVE BUSINESS MODELS

How Collectives Work:

1. **Funding Sources:**
    - Boosters and wealthy alumni
    - Local businesses
    - Fan subscriptions/memberships
    - Corporate sponsors
    - Revenue sharing arrangements
2. **Legal Structures:**
    - 501(c)(3) nonprofits (tax-deductible donations)
    - For-profit LLCs
    - Hybrid models
3. **Athlete Compensation Methods:**
    - Direct NIL payments for promotional work

- Appearance fees
- Social media campaigns
- Autograph sessions
- Camp appearances

Revenue Sharing Changes (House v. NCAA Settlement):

- Schools can now directly pay athletes up to **$20.5 million annually**
- Collectives still play pivotal role in recruiting
- Total NIL market projected to exceed **$2.5 billion** in first year of revenue sharing
- Collectives shifting to supplemental role

Collective Revenue Models:

Model	Description
Donor-Funded	Boosters contribute, collective distributes to athletes
Subscription	Fans pay monthly ($10-$100) for exclusive content/access
Business Revenue Share	Businesses share % of revenue with collective
Merchandise	Collective sells athlete merchandise, splits revenue
Events	Ticket sales for athlete appearances, camps

Top NIL Collectives by Estimated Budget:

School	Collective	Est. Budget
Texas	Horns with Heart	$10M+
Texas A&M	12th Man+	$10M+
Ohio State	The Foundation	$8M+
Alabama	Yea Alabama	$8M+
Georgia	1785 Society	$7M+

ATHLYNX TRADING CARDS & COLLECTIBLES MONETIZATION

Trading Card Revenue Model:

Product	Price	Margin	Volume	Revenue
Digital Trading Cards	$4.99	90%	500,000	$2.25M
Physical Card Packs	$19.99	40%	100,000	$800K
Premium Boxes	$59.99	50%	25,000	$750K
NFT Collections	$29.99	85%	50,000	$1.27M
Total				**$5.07M**

Collective Services Revenue:

Service	Fee	Market	Revenue
Collective Platform SaaS	$25K/year	200 collectives	$5M
Payment Processing	2.5%	$500M processed	$12.5M
Donor Management	$10K/year	200 collectives	$2M
Compliance Tools	$15K/year	200 collectives	$3M
Total			**$22.5M**

NIL GAMING, ESPORTS & VIDEO GAMES

EA Sports College Football NIL Payments:

Largest Single-Sport NIL Deal Ever:

- **Total Spend: $16.5+ million** for player NIL rights
- 2024: $600 per player + copy of game
- 2025: $1,500 per player (150% increase)
- Future: Revenue share based on how often teams are played

Payment Structure Evolution:

Year	Base Payment	Additional
2024	$600	Copy of game
2025	$1,500	Copy of game
2026+	Revenue share	Based on team popularity

College Esports NIL Opportunities:

MarketPryce + EGF Partnership:

- Connects collegiate esports athletes with brand deals
- First NC student received esports NIL deal
- Growing market as gaming becomes mainstream

Esports NIL Categories:

- Streaming sponsorships (Twitch, YouTube)
- Gaming peripheral endorsements
- Energy drink partnerships
- Gaming chair/desk sponsors
- Tournament appearance fees

Streaming Revenue Potential:

Platform	Revenue Model	Athlete Opportunity
Twitch	Subscriptions, donations, ads	$500-$50K/month
YouTube Gaming	Ad revenue, memberships	$1K-$100K/month
TikTok Live	Gifts, sponsorships	$500-$20K/month

Kick	Higher revenue share	$1K-$30K/month

Gaming Brand Sponsors for Athletes:

- Adidas (Ninja deal as example)
- Red Bull
- Monster Energy
- Logitech
- Razer
- HyperX
- SteelSeries
- SCUF Gaming

ATHLYNX GAMING & ESPORTS MONETIZATION

Gaming Division Revenue Model:

Service	Revenue Model	Potential
Esports NIL Marketplace	15% transaction fee	$2M
Streaming Sponsorship Matching	20% commission	$1.5M
Gaming Tournament Platform	Entry fees + sponsors	$500K
Gaming Content Licensing	Revenue share	$1M
Video Game Likeness Deals	10% commission	$1.65M
Total		**$6.65M**

Partnership Opportunities:

- EA Sports (official NIL partner)
- Twitch (streaming platform integration)

- Gaming peripheral brands
- Esports organizations
- Tournament organizers

INTERNATIONAL NIL & GLOBAL EXPANSION

International Student-Athlete NIL Challenges:

Current Restrictions:

- ~14,000 international student-athletes in US
- F-1 visa holders CANNOT earn NIL income in US
- Violates visa status and immigration law
- Can only receive NIL from HOME COUNTRY sponsors

Workarounds:

- O-1 visa (extraordinary ability) allows NIL
- Home country sponsorships permitted
- Passive income opportunities (royalties, licensing)
- Post-graduation NIL deals

Global NIL Market Expansion:

Emerging Markets:

Region	Opportunity	Notes
Europe	Football (soccer) academies	Youth athletes monetizing early
UK	University sports growing	Following US NIL model
Australia	Rugby, cricket athletes	Strong sports culture
Canada	CIS/U Sports athletes	Close to US market
Japan	Baseball, basketball	High brand value
Brazil	Football, volleyball	Massive fan base

NIL Market Concentration:

- ~50% of NIL value in Power 4 conferences
- Football and basketball dominate
- Women's sports growing fastest (volleyball, gymnastics, basketball)
- Prediction: NIL standard in recruitment by 2030

International Athlete Home Country NIL:

Examples:

- International athletes receiving ~$5K/month from home sponsors
- Car sponsorships (Lexus example)
- Home country brand deals
- Family business arrangements

ATHLYNX INTERNATIONAL EXPANSION MONETIZATION

Global Platform Strategy:

Market	Strategy	Revenue Potential
Home Country NIL	Connect international athletes with home sponsors	$5M
UK/Europe Launch	First-mover in European university sports	$10M
Canada Expansion	CIS/U Sports partnerships	$3M
Australia/NZ	Rugby, cricket, AFL athletes	$4M
Asia Pacific	Japan, Korea, China markets	$8M
Latin America	Brazil, Mexico, Argentina	$5M
Total		**$35M**

International Services:

Service	Description
Home Country Matching	Connect international athletes with sponsors from their country
Visa Consulting	O-1 visa guidance for high-profile athletes
Cross-Border Payments	International payment processing
Multi-Language Platform	Support for global athletes
Cultural Brand Matching	Match athletes with culturally relevant brands

---

ADDITIONAL NIL MONETIZATION OPPORTUNITIES

1. NIL Education & Training

Product	Price	Market	Revenue
NIL Certification Course	$299	100,000 athletes	$29.9M
Brand Building Bootcamp	$499	50,000 athletes	$24.95M
Social Media Masterclass	$199	75,000 athletes	$14.9M
Agent/Advisor Certification	$999	5,000 professionals	$5M
Total			**$74.75M**

2. NIL Content & Media

Product	Revenue Model	Potential
Athlete Podcasts	Ad revenue + sponsorships	$5M
NIL News/Media Site	Advertising	$3M

Video Content Production	Service fees	$2M
Social Media Management	Monthly retainer	$10M
Total		**$20M**

3. NIL Events & Experiences

Event Type	Revenue Model	Potential
NIL Summits/Conferences	Tickets + sponsors	$2M
Athlete Meet & Greets	Ticket sales	$3M
Virtual Fan Experiences	Pay-per-view	$1.5M
Autograph Sessions	Fee per signature	$2M
Sports Camps	Registration fees	$5M
Total		**$13.5M**

4. NIL Data & Analytics

Product	Price	Market	Revenue
Athlete Valuation Tool	$99/month	10,000 users	$11.9M

HIGH SCHOOL NIL MARKET

State-by-State Status (2025):

45 states + DC now allow high school NIL

Status	States
Permitted	Alaska, California, Colorado, Connecticut, DC, Georgia, Louisiana, Nebraska, New Jersey, New York, Utah, and 34+ more
Prohibited	Handful of states still restricting
Under Consideration	Few states reviewing policies

High School NIL Categories Allowed:

- Social media sponsorships
- Apparel endorsements
- Local business partnerships
- Autograph sessions
- Camps and clinics
- Personal branding

Market Opportunity:

Key Stats:

- **8 million+ high school athletes** in US
- Growing market as states legalize
- Earlier brand building = higher college NIL value
- Parents heavily involved in decisions

High School NIL Restrictions:

- Cannot conflict with school activities
- No alcohol, tobacco, gambling sponsors
- Must maintain amateur status
- Some states restrict during season
- School logo/uniform restrictions
